TANMAY P. GHARAT

Computer Science Student | Backend Development | Full Stack Development | DevOps
+91-8591863573 | Mumbai, Maharashtra | tanmaygharat1508@gmail.com | GitHub | LinkedIn

SUMMARY

Computer Science student specializing in backend, full-stack web development, and DevOps. Hands-on experience with C++, Python, Java, JavaScript, React, Node.js, SQL, MongoDB, Flutter, Firebase, and Git. Co-Founder and CTO at Astittva, leading application architecture, backend systems, and product delivery for a multilingual platform.

EXPERIENCE

Co-Founder and CTO | Astittva*2025 – Present*
AI-powered astrology platform

- Leading technical development for a multilingual astrology platform designed to deliver personalized guidance to users across 15+ Indian languages.
- Contributing to application architecture, backend systems, and API integration to support the platform's 15+ language rollout.
- Supporting product development and technical roadmap planning for a platform targeting 15+ Indian languages.

Full Stack Developer Intern | ISML (IYPAN Educational Centre Pvt. Ltd.)*Jul 2025 – Dec 2025*
Web application development

- Completed a 6-month full stack internship, contributing to frontend and backend development across live production web applications.
- Implemented and improved application features across the stack, strengthening full-stack delivery practices in a professional environment.
- Received an internship completion certificate for consistent delivery across the full 6-month engagement.

PROJECTS

Insurance Website | MERN Stack*Dec 2024*

- Built a full-stack insurance platform for browsing, comparing, and purchasing plans, with policy management and claim tracking.
- Developed a responsive UI and REST API using MongoDB, Express.js, React, and Node.js.

Inshort | News Platform | React*Jul 2024*

- Built a responsive news-reading app with minimalist navigation and article summaries capped at 60 words for faster scanning.
- Optimized the feed and reading flow for speed, cutting time-to-read per article versus standard news formats.

Grand Groceries App | UI/UX Design*Jun 2024*

- Designed 4 core screens (product listings, category views, product details, and profile) for a grocery shopping app.

Cosmicverse | Comic Generation Platform | Flutter, Firebase*Mar 2024*

- Built a comic-generation platform that turns user-provided storylines into short personalized comics.
- Implemented UI/UX design and API integration connecting the Flutter frontend to a Firebase backend.

Task Tracker App | AppSheet*Oct 2023*

- Built a task-management app with calendar, goal-setting, and profile features.
- Shipped 3 additional no-code apps, including BookYourShow, Event Master, and Team Attendance, for 4 total projects on the platform.

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript
Web: HTML, CSS, React, Node.js, Express.js, REST APIs
Databases: SQL, MongoDB
Mobile & Backend: Flutter, Firebase, API Integration
Development: Object-Oriented Programming, Data Structures and Algorithms, SDLC, Version Control
DevOps & Tools: Git, GitHub, VS Code, VirtualBox, MongoDB Compass
Operating Systems: macOS, Windows, Linux

CERTIFICATIONS

Internship Completion Certificate | ISML*Dec 2025*
Full Stack Developer Internship

ACHIEVEMENTS

Hackathon Participation | Ace of Hacks*Mar 2023*
A.C. Patil College of Engineering

- Participated in the Ace of Hacks hackathon and received a certificate of participation.

EDUCATION

B.Tech CSE | ITM Skills University (School of Future Tech)*2023 – 2027*
Computer Science and Engineering

HSC | Uran Education Society, Uran *2021 – 2023*
SSC | IES JNPV, Navi Mumbai *2020 – 2021*

INTERESTS

Backend Development | Full Stack Development | DevOps | Product Development
